ISO 9001-2008 TRAINING PROVISION CERTIFIED

Operational Systems and Safety Procedures

Schedule Dates:

Start Date	End Date	Place
29 Sept	3 Oct 2024	Cairo - Ramses Hilton

Program Introduction:

Operational systems and safety procedures are critical components in ensuring the efficient, reliable, and safe functioning of any organization, particularly in high-risk industries such as manufacturing, oil and gas, and construction. This training course on "Operational Systems and Safety Procedures" is designed to provide participants with comprehensive knowledge and practical skills in implementing, managing, and improving operational systems while maintaining stringent safety standards. By understanding the integration of these systems and procedures, organizations can minimize risks, improve operational efficiency, and ensure compliance with industry regulations.

Course Objectives:

- ✓ To understand the key components and functions of operational systems.
- ✓ To develop and implement effective safety procedures in the workplace.
- ✓ To learn best practices for integrating safety protocols into operational systems.
- ✓ To enhance skills in risk assessment and management.
- ✓ To ensure compliance with safety regulations and industry standards.
- ✓ To improve incident response and emergency preparedness.
- ✓ To foster a safety culture within the organization that prioritizes both operational efficiency and employee well-being.

Who should attend?

- Operations Managers and Supervisors
- Safety Managers and Officers
- Quality Assurance Managers
- Plant and Facility Managers
- Engineers and Technicians
- Project Managers

- Health, Safety, and Environment (HSE) Professionals
- Any professional involved in operational systems and safety management

Program Outlines

Day One

- Introduction to Operational Systems
- Fundamentals of Safety Procedures
- Designing and Implementing Operational Systems
- Risk Assessment and Management
- Safety Standards and Regulations

Day Two

- Operational Excellence and Safety Integration
- Process Safety Management (PSM)
- Emergency Preparedness and Response
- Human Factors in Operational Systems
- Safety Audits and Inspections

Day Three

- Incident Investigation and Root Cause Analysis
- Operational Risk Management Frameworks
- Maintenance Management and Safety
- Environmental Safety Procedures
- Safety Leadership and Culture

Day Four

- Continuous Improvement in Safety Management
- Operational Control and Monitoring Systems
- Safety Training and Competence Development
- Contractor and Supplier Safety Management
- Technology and Safety Innovations

Day Five

- Crisis Management and Business Continuity
- Behavioral Safety and Employee Engagement
- Operational Systems Optimization
- Incident Reporting and Communication
- Case Studies and Best Practices in Operational Safety

Training Methodology:

- Slide presentations
- Interactive discussion
- Simulations and Gamification
- Online Video material

Cost Quotation in Kuwaiti Dinars

The total cost includes:

-  Instructor(s) expenses
-  Training materials
-  Certification
-  Lunch Included

Total Cost: 1250 KD per Participant
(One Thousand Two Hundred Fifty Kuwaiti Dinar)
