Security Planning & Operations

Schedule Dates:

Start Date	End Date	Place
07-Dec-2025	11-Dec-2025	The H Hotel Dubai

Program Introduction:

Effective security planning and operations are crucial for safeguarding organizational assets, employees, and operations from potential threats. This course, "Security Planning & Operations," is designed to provide professionals with the knowledge and skills required to design, implement, and manage comprehensive security strategies. Participants will learn how to develop risk assessments, create security plans, deploy operational security measures, and manage security teams to ensure the safety and continuity of business operations in dynamic and high-risk environments.

Program Objectives:

- ✓ Understand the principles of security planning and the role it plays in organizational safety.
- ✓ Learn how to assess security risks and vulnerabilities within an organization.
- ✓ Develop effective security policies and procedures tailored to specific operational needs.
- ✓ Gain skills in creating and implementing security plans for various types of threats and environments.
- ✓ Understand the operational aspects of security, including resource allocation and deployment.
- ✓ Master the coordination of security personnel and teams for effective execution of plans.
- ✓ Use technology and tools to enhance operational security.
- ✓ Ensure compliance with national and international security regulations and standards.

Who should attend?

- Security managers and officers
- Facilities and operations managers
- Risk management and compliance professionals
- Security consultants and advisors
- Corporate and government security personnel
