Supervisory Skills in Industrial Security

Schedule Dates:

Start Date	End Date	Place
12-Jan-2026	16-Jan-2026	Cairo -Ramses Hilton Hotel

Program Introduction:

Industrial environments face unique and complex security challenges that demand strong, proactive leadership. The “Supervisory Skills in Industrial Security” training course is designed to equip security supervisors and team leaders with the essential skills to lead effectively in high-risk, regulated, and often hazardous environments. The course focuses on developing both the technical knowledge of industrial security systems and the interpersonal skills needed to manage security teams, respond to incidents, and maintain compliance with organizational and legal standards.

Program Objectives:

- ✓ Understand the key responsibilities of security supervisors in industrial environments.
- ✓ Develop leadership and communication skills for managing security personnel.
- ✓ Learn to implement and monitor industrial security policies and procedures.
- ✓ Enhance situational awareness and decision-making in high-risk settings.
- ✓ Ensure compliance with safety, legal, and regulatory requirements.
- ✓ Gain skills in incident response, conflict resolution, and reporting.
- ✓ Foster a culture of discipline, accountability, and teamwork in security operations.
- ✓ Integrate technology and tools for more effective supervision and control.

Who should attend?

- Industrial security supervisors and team leaders
- Security personnel being promoted to supervisory roles
- Security managers and coordinators
- Health, Safety & Environment (HSE) officers
- Plant, facility, and operations supervisors with security responsibilities
- Military or police personnel transitioning to industrial security roles
- Contractors and subcontractors working in security functions
